Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

4Roots

https://www.4rootsfarm.org

Focused on advanced regenerative farming, science and technology, and an awakening to the symmetry between food and medicine, 4Roots is a place where thoughts are exchanged, innovation is inspired, and changes that transform the world come to life.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

4G RECYCLING Since 1910

4th Generation Recycling

https://www.4grecycling.com

4G Recycling is one of the top five, privately-held national recycling companies in North America. We purchase all recycle commodities such as cardboard, paper, plastic, metal, styrofoam, and more.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

15 lightyears

15 lightyears

https://www.15lightyears.com

15 lightyears is a social enterprise that leverages storytelling, media, and community engagement to promote innovation, workforce development, and sustainability while connecting communities with emerging technologies and industry opportunities.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

360 Matrix

https://360matrix.io/

360 Matrix, is a technology company offering reality capture, visualization, data analysis services, and custom software solutions to a wide array of industries.

Reality Capture - Our comprehensive data collection strategies will produce reliable and accurate 3D data that is ready to use in your project. Interactive Digital Twins - Create, visualize, and share project data with our interactive immersive digital twin environments. Track millions of data points over time to minimized modeling time and costs while streamlining decision-making and visualization.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

SUSTAIN

A Sustain

https://www.amlysustainability.com/

A Sustain is a consultancy specialized in product environmental sustainability that aims to curb carbon emissions, unhealthy materials and solid waste. Using analytical tools, we assess materials and processes to help develop better products.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

ACREAGE FARMS
SUSTAINABLE GROWING TECHNOLOGIES

Acreage Farms LLC

https://www.acreage.farm

Acreage Farms' mobile monitoring system provides optimal growth for each individual crop in vertical farms by collecting 3D environmental data and imagery to detect nutrient deficiencies while traversing over multiple tiers to reduce costs.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

AGILE WASTE SOLUTIONS

Agile Waste Solution

https://agilews.org

Agile Waste Solutions (AWS) offers sustainable waste management with decentralized trash pickup and the PowerPit, a compact incinerator that generates power from waste with minimal emissions. Their mission is to achieve zero landfill waste

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Agriculture Intelligence

Agriculture Intelligence, Inc

https://www.agintel.ai

Agriculture Intelligence (AgIntel) delivers AI-driven agricultural insights with 95% accuracy, optimizing resource management for insurers and growers. Our patented technology ensures precision at scale, reducing costs and enhancing decision-making.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Agrii LLC

https://agrii.io

Agrii is an agricultural technology platform that connects local farmers directly with consumers seeking fresh, locally sourced produce. Through its farm-to-table marketplace, Agrii supports local food systems, strengthens farmer-consumer relationships, and improves access to sustainable and regionally grown products.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

AgWise LLC

https://agwise.io

Agwise's farm intelligence platform helps farmers save money and mitigate environmental impacts with precision recommendations, while also unlocking innovative tax incentives around innovation.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

AIroraSense

AIroraSense

https://www.airorasense.com

AIroraSense helps utilities ensure infrastructure is built right by using AI and field imagery to verify construction meets standards at scale, improving visibility, reliability, and confidence in grid modernization and hardening efforts.

Energy + Environmental Sciences

Central Florida Cluster Initiative Cenfluence

Cluster Member Spotlight

AMROK

https://amrok.space

AMROK is making spacecraft coordination practical, reliable, and fast. AMROK's first product, ARVIN, introduces new sensors that enable high-speed, high-reliability rendezvous, proximity operations, and docking missions.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

AURIEL SYSTEMS

Auriel Systems, Inc.

https://aurielsystems.com

Auriel Systems is a robotics startup developing UAS that uses computer vision and photonics to detect and eliminate insects, such as mosquitoes, aphids, and psyllids, with direct thermal energy to be used as a pesticide replacement.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Bigadan Americas

Bigadan Americas

https://bigadan.com/

Bigadan Americas is a part of Bigadan, a global leader in biogas technology. For more than 40 years, we've worked world-wide to shape the future of circular energy. We develop, construct, operate and own end-to-end biogas systems.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Bioechem

https://www.bioechem.com

Bioechem is a bioenergy sustainability company that has developed core technology that uses specialized microorganisms to catalyze renewable electricity generation, support microgrid applications, or enable ZnO manufacturing.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

BioHarmony Solutions

https://www.4rootsfarm.org

We design and manufacture our own line of Aerobic Biodigesters. An aerobic biodigester is a self-contained organic food waste management system designed to transform solid food waste into a high-quality byproduct that can serve as a soil enhancer.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Biotech Applied Research Inc

https://www.biotechappliedresearch.org

Biotech Applied Research (BAR) is a Florida 501(c)(3) advancing waste-to-value technologies through applied research, field demonstrations, and biochar solutions for agriculture, water quality, carbon removal, and sustainable biomass management.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

BLUE-BAND

Blue-Band, LLC

https://www.blue-band.net

We embrace innovation for a sustainable future by creating a tech stack to enhance traffic management with sensors, edge software integration, and connectivity. We revolutionize the transportation infrastructure with reliable, scalable solutions.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

CAPACITECH

Capacitech Energy Inc.

https://www.capacitechenergy.com/

Capacitech is building power storage capabilities inside of the world's wiring infrastructure to help our customers offer better, smaller, and more reliable products with new capabilities. Our flexible supercapacitor technology, the Cable-Based Capacitor (CBC), is shaped like a wire. The CBC complements batteries, provides peak power assistance, improves power quality, provides backup power, reduces EMF/EMI, and miniaturizes electronics.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Cart IoT

https://cartiot.com

Cart IoT builds CHARGER SAFETY, the missing IoT layer for smart cities. Real-time monitoring, auto shutoff, and cloud alerts stop golf cart charging fires. High-tech hardware designed and built in Central FL by a former volunteer firefighter.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Copower USA

https://www.copower.com.co

COPOWER is a company with 20 years of experience, dedicated to the development of power generation projects, electrical tests and EPC projects and committed to innovation in the energy sector.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Deep Reach Technology

Deep Reach Technology

https://www.deepreachtech.com

DRT drives solutions to cutting-edge problems in marine renewable energy using ocean engineering expertise, a holistic design approach focusing on systems-level impacts, and a culture dedicated to innovation.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

DEHOUST
ENERGY. HEAT. WATER.

Dehoust USA Corp.

https://www.dehoust.com

Manufacturer of decentralized Service Water Systems

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

depth

Depth AI

https://depth.ai

Depth AI develops AI-powered digital twin, mixed reality, and holographic imaging technologies that enable immersive visualization, simulation, and analysis of physical environments.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

DRUMMOND CARPENTER

Drummond Carpenter, PLLC

https://www.drummondcarpenter.com/

Drummond Carpenter delivers engineering, environmental, infrastructure, nuclear, and data intelligence services for public and private sector clients.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

DUKE ENERGY®
SUSTAINABLE SOLUTIONS

Duke Energy Florida

https://www.duke-energy.com

Duke Energy Sustainable Solutions is a nonregulated commercial brand of Duke Energy designed to offer a comprehensive approach to sustainability and resiliency for businesses and organizations nationwide.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Dyson Laboratories

https://dyson-labs.com

Dyson Laboratories is building Bitcoin mining in space. Satellites underutilize the power they generate, and with a latency-tolerant, low-data connection, this excess power can be monetized.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

E&P Technologies

https://www.eptech.us

E&P Technologies designs and manufactures high-voltage capacitors powering fusion energy, advanced defense, and critical technologies. Our compact, high-performance designs deliver reliable pulsed power for the most demanding future systems.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

EPI®
ECO PARTNERING INNOVATIONS, LLC
DELIBERATE TECHNOLOGY SOLUTIONS

Eco Partnering Innovations, LLC

https://www.ecopartnering.com

Eco Partnering Innovations promotes sustainability with IoT technologies and strategic partnerships. Their solutions enhance connectivity for smart cities, making infrastructure smarter, safer, and more efficient while benefiting the environment.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

ecoPreserve

ecoPreserve

https://www.ecopreserve.net/

ecoPreserve is a certified, woman-owned small business, established to solve complex problems affecting our environment. Our mission is to help our clients achieve their sustainability goals and create a low carbon future. To date, ecoPreserve has optimized operational efficiencies, reduced GHG emissions and improved health and wellness in over 50M square feet of building space impacting 100M+ people.ecoPreserve professionals serve local and federal governments, aviation, transportation, healthcare, higher education, and private industry with a broad range of services with services including: sustainability and climate resilience planning; Efficient and Clean Energy; Clean Transportation; occupational health and safety; and Zero Waste planning.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

ecoSPEARS
INNOVATION THAT CLEANS THE WORLD

ecoSPEARS

https://www.ecospears.com/

ecoSPEARS' NASA developed green remediation technology eliminates PCBs and other chlorinated compounds from soil, water, or sediments in a cost-effective, non-destructive, and sustainable manner.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

eJet Aerospace - The New Way To Fly

https://ejet.tech/

eJet Aerospace is an advanced aviation technology company developing innovative electric propulsion systems for next-generation aircraft. Its proprietary SMAPAD® technology is designed to enable 100% electric flight with long-range, high-altitude, and low-signature capabilities, supporting the future of sustainable aviation, aerospace innovation, and advanced air mobility.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Elucid8, Inc.

https://augurintel.com

Augur cross-references rules, regs, and awards and with water monitoring data to pinpoint entity-specific compliance requirements, and saving time and money and eliminating the need to hire expensive consultants just to determine your next steps.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

ENERGY DISCOVERIES

Energy Discoveries LLC

https://sites.google.com/view/energy-discoveries/home

Energy Discoveries LLC (EDLLC) is a small innovative company looking to make a positive change in the conservation of our planet through high-impact innovations that have not yet been tested but that represent a great challenge for science

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Enespa Technologies US, LLC

https://www.enespa.com/en

Enespa transforms post-consumer plastic waste into high-quality raw materials through advanced pyrolysis technology, supporting the circular economy and sustainable manufacturing initiatives.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

ESSENTIA
INDUSTRIAL PROJECTS LLC

ESSENTIA INDUSTRIAL PROJECTS LLC

https://essentiaindustrial.com/

Essentia Industrial Projects designs and supplies custom plant growth chambers, climate chambers, cleanrooms and HVAC systems for research, life sciences and industrial customers, with U.S. project support in Orlando and European engineering.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Eta Space llc

https://etaspace.com

Eta Space is revolutionizing the space and energy industry. As leading minds in cryogenic fluid management technology and chemical propulsion systems, we design the most efficient cryogenic systems for the New Space & Energy Age. Fueling the future.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Exodigo

https://exodigo.com

Exodigo develops geophysically accurate underground mapping solutions that help utilities and construction teams reduce subsurface risk, improve planning accuracy, and streamline infrastructure projects.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

EZ Ag Innovations

https://ezaginnovations.com/

Founded in 2022, EZ Ag Innovations is dedicated to helping farmers increase crop yields while minimizing waste and protecting the environment. Our specialty is targeted spraying, which we achieve through the use of advanced AI technology.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence™

Cluster Member Spotlight

FermiTron™ Inc.
Electronic Product Development

FermiTron, Inc.

https://www.fermitron.com

FermiTron, Inc. is an ISO 9001 & AS9100 certified full-service electronic product design and manufacturing corporation serving businesses ranging from promising startups to Fortune 500 corporations and government entities.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

FLUIX

FLUIX

https://www.fluix.ai/

Unlocks the full power of custom PCs & workstations by eliminating the challenge of heat with turbulence liquid cooling. Increasing productivity for compute-intensive firms and uncapped performance for enthusiasts.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

The Fulcrum INTERNATIONAL

Fulcrum International Inc.

https://thefulcrumintl.com/

Formed in 2004, The Fulcrum International Inc. (TFI) provides consulting for large infrastructure projects. Special interests include technology, safety and LiDAR(3D).

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

GENESIS
WATER TECHNOLOGIES
Using Innovation To Meet The Water Needs Of The World

Genesis Water Technologies, Inc.

https://genesiswatertech.com

Genesis Water Technologies is an award winning specialized water treatment solutions company providing sustainable technologies, engineering, advanced solutions to solve complex water & wastewater issues for industries and utilities in FL & globally.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Global Emergency Management Solutions

https://gemscorps.com

Our Mission at Global Emergency Management Solutions is to develop both softwares and hardwares to help decision makers save lives due floods and flood induced hazards.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

GREEN ACTIONEERS

Green Actioneers

http://greenactioneers.com

Our 266-page bilingual (English/Spanish) Green Actioneers Family Action Guide will be in schools all over the US in 2022-23 school year. It involves the whole family and takes an entirely positive approach to "going green"

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

HaloEngines

Halo Engines

https://haloengines.wixsite.com/halo

Halo Engines' technologies are directly applicable to emerging innovations in the energy industry, utilizing novel thermodynamic engine cycles to more completely leverage the high-performance potential of hydrogen-based combustion systems.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

HortronX

https://HortronX.com

HortronX is a Solid State Energy Device using advanced nanotechnology circuits and is based on the Unified Field. The HortronX device is able to reduce the amount of energy being consumed by approximately 75% while maintaining designed output.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

HYDRONOMY

Hydronomy Inc.

Hydronomy is a solar powered atmospheric water generator. The system captures moisture in the air and converts it into clean water. The water output from this system currently exceeds the EPA Safe Drinking Water Standards.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Hypurstool

Hypurstool

https://hypurstool.com/

Hypurstool uses a proprietary system that dovetails into existing wastewater infrastructure to deliver clean, low-cost, and local hydrogen to the space industry.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

IMPRESS SPACEWORKS

IMPRESS SPACEWORKS CO.

https://impressmars.com/

IMPRESS Spaceworks develops impact-resistant probes for low-cost access to planetary surfaces and shallow subsurfaces, enabling science, life detection, and resource prospecting, with potential aircraft-deployed sensing applications on Earth

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Kationx Corp

https://www.kationx.com

Kationx Corp designs, manufactures, & sells its proprietary Made-in-Florida green/clean technology to government, industrial, & commercial markets. Uses include wastewater, HAZMAT, & environmental treatment & remediation.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

KeeperSpace Inc

https://keeperspace.com/

KeeperSpace is building the persistent orbital defense layer that actively tracks threats in space and orchestrates autonomous spacecraft response to ensure space remains a resource for generations to come.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

LuftCar LLC

https://www.luftcar.com

LuftCar is an advanced mobility company developing hydrogen-powered, autonomous, and multimodal transportation systems. Its eVTOL platform is designed to seamlessly integrate air and road travel, supporting passenger transportation, logistics, and last-mile cargo delivery through sustainable, innovative mobility solutions.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

M2X Energy Inc.

https://www.m2x.energy

M2X was founded on the belief that climate change must be addressed urgently and that solutions must be economically viable. Flaring is a significant contributor to greenhouse gases. M2X's vision is to convert flare gas into low-carbon chemicals.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Maxus Solar

Maxus Solar

https://www.maxussolar.com

Maxus Solar develops patented analytical software that enables fast, offline solar irradiance and energy optimization for engineers, EPCs, and solar software platforms, supporting more efficient design and deployment of photovoltaic systems.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

MEGNEON

Megneon

https://megneon.com/

Megneon is developing the world's first plasma battery — a high-density energy storage solution that eliminyates toxic materials such as lithium. Megneon enables safer, more sustainable mass energy storage with radically improved cost per kWh.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Mobile Power Products, LLC

https://electroxylo.com

Mobile Power primarily stores energy from the grid to a high density battery pack. This is a lightweight application for personal use. Use cases are: recreation and/or emergency power and light during black outs.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Multifocus Investment Inc

https://www.decanergy.com

An innovative cogeneration solution for commercial real estate satisfying energy & heat demands while reducing all carbon emissions via high efficiency fuel cell technology plus carbon capture for further industry uses.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

Naycel Systems

https://naycel.com

Naycel Systems: Transforming energy storage production. We specialize in sustainable, high-performance graphitic carbon for advanced battery manufacturing. Powering innovation and sustainability in the energy sector.

Cluster Member Spotlight

SENSATEK

Sensatek Propulsion Technology

https://www.sensatek.com/

Sensatek Propulsion Technology develops and manufactures wireless, high-temperature, gas turbine sensors to measure heat transfer data for customers in several industries including Energy, Aviation, and Aerospace.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

SKYTL

SKYTL

https://www.skytl.com/

Improving Aviation, d.b.a. SKYTL, develops aerospace technologies to improve environmental sustainability. We are developing a system that takes advantage of aircraft engine exhaust to generate clean energy using a system of vertical axis wind turbines.

Update March, 2025: Improving Aviation has developed WindTL, an advanced wildfire prediction and risk analysis platform that integrates AI, physics-based modeling, and real-time data to simulate and predict fire spread, ember transport, and ignition risk. Designed for utilities, insurers, and emergency responders, WindTL provides scientific insights and validation for wildfire mitigation decisions, helping determine when to de-energize power lines, assess liability, and protect critical infrastructure. By incorporating high-resolution weather, terrain, and fuel data, WindTL delivers actionable insights to reduce wildfire risks, validate fire origins, and support data-driven emergency response.

Energy + Environmental Sciences

Cenfluence

Cluster Member Spotlight

SwapCo

Swapco, Inc.

https://www.swapcoapp.com/

SwapCo is a community-powered app that makes fashion circular by allowing users to swap clothing instead of buying new—reducing waste, saving money, and promoting sustainable habits through tech-driven solutions.

Energy + Environmental Sciences

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

SynMatter
Make. Matter.

SynMatter

https://synmatter.co/

SynMatter's Smart Particles are inorganic microparticles that contain active agents. They are designed to be compatible and easily incorporated into a variety of matrices, such as coatings (both solvent- and waterborne systems), resins, plastics, varnishes, caulks, putties, sealants, adhesives, liquids, dispersions, and many others, and provide those matrices with improved properties and smart functionalities. This is achieved through the Smart Particles' built-in release mechanism that is triggered by changes in the environment. Currently, Smart Particles are designed to sense and react to changes in pH, but formulations that respond to changes in temperature or ion concentrations, or are light sensitive (visible, infrared or UV light), are being developed.

Envy Labs

Envy Labs

https://envylabs.com/

You're an authority in your field, and the app idea you've been kicking around proves it. When it's time for a similarly-skilled partner to bring that idea to the web, we're ready to get started.

For Startups: Early-stage companies lean on us as a stand-in CTO. We'll work together to tackle limited resources like time and budget efficiently, iterate quickly, and set a foundation that'll carry your product into the future.

For Enterprise: Established organizations bring us in for scale and speed. We'll add our expertise to narrow down all of the decisions you're responsible for, and offer new perspectives to old problems.

SOARTECH

Soar Technology Inc.

https://soartech.com

Is it possible for software to understand and anticipate human reasoning? At SoarTech, we believe it is. We build intelligent systems for defense, government, and commercial applications that emulated human decision making in order to enhance user abilities – saving time, money, and lives. Since 1998, we've studied and modeled many kinds of human behavior in order to create software that "thinks the way people think": constantly learning, getting smarter, and adapting to new times and situations. Much of this scientific base is encoded within our computational cognitive architecture, which enables the creation of autonomous software agents that can reason over large amounts of human-level knowledge. The end result for your users is a system that is not just a tool in their hands, but a thinking partner.

Mission Guided. People Driven.

ClinCloud Clinical Trials

https://www.clincloudresearch.com/

We create relationships within our community, optimize advances in medicine & biotechnology, reflect on current processes to identify areas for improvement, educate participants & providers alike on the resources available through clinical research.

ClinCloud LLC was established in 2017. This company was founded on the premise that patient engagement in clinical research is waning. Jessica felt a strong need to bring a sense of community and purpose back into the research space. By leveraging her 7 years of experience in patient recruitment and retention, Jessica sought to build a bridge between the community and effective clinical trial enrollment. The ClinCloud team envisions this connecting space to eventually be a collaborative hub of patients and research sites, facilitating research education and trial enrollment in the "ClinCloud."

Modelithics®
Accelerating Your Design Success!

Modelithics, Inc

https://www.modelithics.com

Modelithics develops high-accuracy RF and microwave simulation models for active semiconductor and passive devices. Its solutions support Electronic Design Automation (EDA) workflows, helping engineers improve design accuracy, reduce development time, and optimize electronic system performance.

Semiconductors

Central Florida Cluster Initiative
Cenfluence

Cluster Member Spotlight

multicore

Multicore Technologies

https://www.multicore.tech/

We develop fiber optic sensors for industrial applications at a price point that is competitive with electrical-based sensors. Our unique technology enables construction of optical sensors from low-cost optical fibers. These sensors are more durable, more capable and easier to integrate than competing optical technologies. Our first market is exhaust sensing; an area highlighted by Volkswagen's recent failure to comply with emissions standards.

Osceola County

https://www.osceola.org/

Formed on May 12th, 1887 from portions of Orange County and Brevard County, Osceola County became Florida's 40th county. Named after the famed Seminole leader, this area was a transportation hub in the late nineteenth century for riverboats and railroad. It readily began a cattle, sugar, and lumber-based economy.
